

Discussion Questions:

1. What stereotypic characteristics are associated with being an atheist? A Christian? Do you believe those stereotypes influenced how you categorized the source of the statements on the handout? Do the statements fit with those stereotypes?
2. Were you able to correctly categorize the source of the statements? Why or why not? What patterns did you notice in your answers?
3. Do you believe that most people see a difference in the moral values held by Christians and atheists? If so, how would you describe those differences and what do you believe is their source?
4. Do you believe attitudes toward atheists and toward Christians are changing? If so, why?
5. How did your own personal beliefs or values affect your responses? Were your responses influenced by the number of Christians and/or atheists you interact with?
