

Subtle Prejudice Discussion Questions

1. On which section did you score the lowest? Highest? Or are all your scores similar? Why do you think that happened? Do you feel surprised, disappointed, or satisfied by your results? Why?
2. Think about your own social group memberships. How do you think the answers for each section would be different for dominant group members (e.g., a White person answering the questions in Section A or a heterosexual answering the questions in Section C) compared to minority group members (e.g., a disabled person answering the questions in Section D)? Explain your reasoning.
3. Think about your friends and family and how they might have completed the questionnaire. Do you think their responses would be similar to or different from yours? Why?
4. What experiences have you had that may have contributed to the way you answered the questions?
5. What does it mean if someone reports feeling uncomfortable in the situations described on the questionnaire? Does it suggest that the person is biased against certain social groups? Why or why not?
